

# MS Brain Health: global impact

Sharing our vision for timely management  
of multiple sclerosis

MS Brain Health  
Time Matters

**“MS Brain Health has changed the way that leading MS neurologists view best practice in MS care”**

**2015**  
Evidence-based  
policy report

**2016–2017**  
Sharing the  
'time matters'  
message

**2018–2019**  
Expert agreement  
on timing of key  
steps in care  
pathway

**2020**  
MS community  
members completed  
survey about  
MS Brain Health  
impact

## What global impact does our survey reveal?

**16**  
countries

have made clinical  
practice changes

**93%**  
of respondents

mentioned improved MS services and  
management, already made (84%) or likely

## What changes has MS Brain Health led to?

**Enhanced knowledge  
of brain health**

**More regular MS  
monitoring**

**Improved lifestyle  
guidance for people  
with MS**

**Care pathway changes  
such as earlier diagnosis  
and treatment<sup>b</sup>**

## What else has improved?

**“Lifestyle recommendations  
incorporated into newly  
updated standards for  
diagnosis and treatment”**

**“Updated criteria for  
reimbursement of DMTs”**

**“Rapid pathways set up for  
people newly diagnosed  
with MS to be seen  
and treated”**

**“More DMTs available  
for MS patients”**

The MS Brain Health initiative is funded by grants from Actelion Pharmaceuticals and Bristol Myers Squibb and by educational grants from Biogen, F. Hoffmann-La Roche and Merck KGaA, all of whom had no influence on the content

<sup>a</sup>This group included carers of people with MS  
<sup>b</sup>Some respondents noted MS Brain Health impact on local/regional and national care pathways  
DMT, disease-modifying therapy; HCP, healthcare professional
